

HH's Pratumnak projects are making great progress

The Peak Towers, Tower A

Laguna Bay 2 structural work

C View Boutique rooftop

The Peak Towers

Heights Holdings are pleased to report good progress on their numerous Pratumnak-based developments. Here are the latest construction updates across the HH portfolio for the area:

Waterpark Condominium

Following the receipt of EIA (Environmental Impact Assessment) approval for The Waterpark Condominium in early August, the project broke ground later the same month and piling work is now underway at Pratumnak Soi 5.

C-View Boutique

The exterior skeleton of C-View Boutique is now complete up to the sixth (top) floor, with work now underway on the rooftop area, including preparatory work for the swimming pool and fitting of the water tank.

Interior wall brick work is complete up to the fifth floor, while plastering throughout the building stands at 40 per cent complete. Electric and piping preliminary installation works are approximately 80 per cent complete.

Laguna Bay 2

Laguna Bay 2 piling is complete, with foundation work more than 90 per cent complete. Structural work has now begun on the ground floor and car park area.

The Peak Towers

Structural work on The Peak Towers - Tower A is now complete up to the 20th floor, with the Tower B skeleton now built up to the 15th. Internal wall brick work for Tower A is complete up to the ninth floor, with Tower B interior walls in place up to the third floor.

Main plumbing systems are installed up to the 15th floor of Tower A and the 7th floor of Tower B, with primary electrical fittings in place up to the 4th floor of Tower A. Work has now commenced on the fitting of waste water facilities for both Towers.
